PHOTO EDITING

I offer a bespoke editing service to wedding photographers around the UK. Using Adobe Lightroom and your presets, I aim to match your style and free up your time.

1. Consultation

Everyone works in a slightly different way so before I do a trial edit I like to look at a wedding edited by you so I can get a good feel for your style.

2. Trial edit

After I've looked at some of your work I'll ask you to send me a Lightroom catalog of around 50 images along with your presets. Once I've worked on them you can give me feedback on anything you'd like done differently.

3. Let's get started!

When you are totally happy the editing can commence.

4. Pricing

I have two tiers of pricing, one for a basic edit and the other for an advanced edit. Basic includes, Crop/rotate, colour balance, exposure and sliders in the basic section. Advanced includes that plus brushing, radials, gradients, HSL, spot removal, tone curve etc.

Basic

350-449 images - £135

450-549 images - £155

550-649 images - £175

650-749 images - £195

Advanced

350-449 images - £155

450-549 images - £175

550-649 images - £195

650-749 images - £215
